

APRIL

THE MARCH MEETING speaker was Delores Montgomery, whose slide program, "The Making of a Geologist," depicted her summer geology field course from the University of Wisconsin in the Canadian Rockies. Listeners enjoyed the scenery, and her explanation of the geology of the areas shown, while marvelling at the hardihood of the crew members. The club is proud of Delores, as one of our own members.

Guests at the meeting were Raymond Loomis, Mr. and Mrs. Otto Norgard, Iral and Donaline Nutt, and Mr. and Mrs. Mel Smith.

PROGRAM -- At the April 18 meeting, Dr. Maynard Miller, a glacial geologist from Michigan State University's geology department, will give a film and slide program on "Ice, the Frozen Mineral." The movie was produced for the National Geographic Society, and was filmed on the Juneau Glacier in Alaska where Dr. Miller has conducted much field study. All who have heard Dr. Miller will say, "Don't miss this!"

ROCKHOUND NEWS

April 197

APRIL FIELD TRIP -- We are having a field trip to the Cheney Quarry on April 28. To get to Cheney Quarry, go through Charlotte, take old M78 to Bellevue. Go through the light, cross the bridge on the west side of town, turn right on the first road go about half mile to the Quarry on the right.

Milo Hillis, Field Trip Chairman

FINANCIAL STUDY -- William Rogers and Loyd Pearson served as judges for the Earth Science Award given by Central Michigan Lapidary and Mineral Society at the Lansing area Youth Talent Show held this past month at the Lansing Civic Center. Since there were two exhibits of outstanding merit, the CML&MS Board decided to present both of the exhibitors with a bond. The two winners are Curtis Bond, 309 W. Elm, Mason, and Timothy Rose, 2360 Seminole Drive, Okemos. Both boys are Junior High students, in Mason and Okemos respectively. The young people and their families are invited to attend our club meeting for presentation of the awards and to become acquainted.

Acknowledgment of the club's Scholarships at Lansing Community College and at Michigan State University has been received from both of those institutions. Bettie Patterson will act as the club's representative on the awards committee at Michigan State University.

THE ROUND ROBIN FIELD TRIP held March 24 was a great success, according to all reports, with many people taking advantage of this opportunity to see unusual collections. The Malkins even had an evening session of visitors.

We would like to thank Tom and Millie Malkin, and Loyd and Lola Pearson for opening their homes to our Round Robin. Their mineral and rock displays are so beautiful! Thank you, Loyd and Lola, for the wonderful snack you had for us all. There were twenty four of our members that enjoyed our Round Robin.

Milo Hillis, Chairman
