

June

PROGRAM - The theme of the June 14 meeting will be "Places to Go for Your Summer Collecting." A group of club members will share their knowledge of locations with you, and give you tips on how, as well as where, to go about collecting.

The June meeting will be on the second Thursday, June 14. Board meeting will also be a week early, May 31 at the home of Ken and Thea May Kurtz. Ken and Thea May say that early comers can cook their supper on the new fireplace in their yard.

MWF GEOLOGY CHAIRMAN Wayne Henderson will conduct a geological tour around the north shore of Lake Superior July 14-21, gasoline availability permitting. There will be some collecting. Members of all Michigan clubs are invited to go. The group will assemble in the parking lot at the north end of the Mackinaw Bridge at 9:00 a.m., July 14, ready to travel. Will all persons interested please contact Wayne Henderson so that he will know whom to expect? Write 2186 Auburn, Holt, Mich. 48842 or call 517-694-3200. Those members who made the trip two years ago with Wayne and Marian can vouch for what an interesting experience it will be.
